· **vPvB:** Not applicable.

3 Composition/information on ingredients

- · 3.2 Mixtures
- · Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous compor	nents:	
	Alkenes C12-24 Chloro	10-25%
	🗙 Xi R36/37/38	
	🚯 Skin Irrit. 2, H315; Eye Irrit. 2, H319; STOT SE 3, H335	
CAS: 8013-07-8	Epoxidized Soybean Oil	<10%
EINECS: 232-391-0	💫 N R51/53	
	Aquatic Chronic 2, H411	
 Additional informat 	ion: For the wording of the listed risk phrases refer to section 16.	

4 First aid measures

- · 4.1 Description of first aid measures
- General information: Take affected persons out into the fresh air.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

- · After eye contact:
- Remove contact lenses if worn.

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

· After swallowing:

Rinse out mouth and then drink plenty of water.

Do not induce vomiting; call for medical help immediately.

- 4.2 Most important symptoms and effects, both acute and delayed Gastric or intestinal disorders.
- · Hazards No further relevant information available.
- **4.3 Indication of any immediate medical attention and special treatment needed** If swallowed, gastric irrigation with added, activated carbon. Medical supervision for at least 48 hours.

5 Firefighting measures

 5.1 Extinguishing media
 Suitable extinguishing agents: Fire-extinguishing powder
 Gaseous extinguishing agents
 Carbon dioxide
 Foam
 For safety reasons unsuitable extinguishing agents: Water with full jet

(Contd. on page 4)

GHS

Printing date 25.03.2014

Revision: 25.03.2021

Trade name: R3 - AC LEAK REPAIR

(Contd. of page 3)

 \cdot 5.2 Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

· 5.3 Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

· Additional information Cool endangered receptacles with water fog or haze.

6 Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Particular danger of slipping on leaked/spilled product. Ensure adequate ventilation
- 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water. Prevent from spreading (e.g. by damming-in or oil barriers).
- 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- 6.4 Reference to other sections
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.
 See Section 13 for disposal information.

7 Handling and storage

· 7.1 Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Avoid the formation of oil haze.

No special precautions are necessary if used correctly.

- · Information about fire and explosion protection: Keep ignition sources away Do not smoke.
- \cdot 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- \cdot Requirements to be met by storerooms and receptacles:

Provide ventilation for receptacles.

Prevent any seepage into the ground.

Avoid storage near extreme heat, ignition sources or open flame.

 Information about storage in one common storage facility: Store away from foodstuffs.
 Store away from water.
 Do not store together with oxidizing and acidic materials.

• Further information about storage conditions:

Store in cool, dry conditions in well sealed receptacles. Store receptacle in a well ventilated area.

(Contd. on page 5)

GHS

· 7.3 Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical facilities: No further data; see item 7.

- · 8.1 Control parameters
- Ingredients with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be

monitored at the workplace.

- DNELs No further relevant information available.
- PNECs No further relevant information available.
- · Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment:
- General protective and hygienic measures: Wash hands before breaks and at the end of work. Keep away from foodstuffs, beverages and feed. Avoid close or long term contact with the skin. Avoid contact with the eyes.
- · Respiratory protection:

Only during spraying without adequate removal by suction. Use suitable respiratory protective device when aerosol or mist is formed. For spills, respiratory protection may be advisable.

· Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection:

Contact lenses should not be worn.

Safety glasses

(Contd. on page 6)

Printing date 25.03.2014

Trade name: R3 - AC LEAK REPAIR

· Body protection: Protective work clothing

• Limitation and supervision of exposure into the environment No further relevant information available.

· Risk management measures

See Section 7 for additional information.

No further relevant information available.

9 Physical and chemical properti	es	
 9.1 Information on basic physical and General Information Appearance: 	l chemical properties	
Form: Colour: · Odour: · Odour threshold:	Liquid Yellow Petroleum-like Not determined.	
· pH-value:	Not determined.	
 Change in condition Melting point/Melting range: Boiling point/Boiling range: 	Not Determined. Undetermined.	
· Flash point:	190 °C (374 °F)	
· Flammability (solid, gaseous):	Not applicable.	
· Auto/Self-ignition temperature:	Not determined.	
· Decomposition temperature:	Not determined.	
· Self-igniting:	Product is not self-igniting.	
· Danger of explosion:	Product does not present an explosion hazard.	
 Explosion limits: Lower: Upper: 	Not determined. Not determined.	
· Vapour pressure:	Not determined.	
 Density at 20 °C: Relative density Vapour density Evaporation rate 	1,29 g/cm ³ Not determined. Not determined. Not determined.	
 Solubility in / Miscibility with water: 	Not miscible or difficult to mix.	
· Partition coefficient (n-octanol/water)	: Not determined.	
 Viscosity: Dynamic: Kinematic: 	Not determined. Not determined.	(Contd. on page 7)

Revision: 25.03.2021

(Contd. of page 5)

Printing date 25.03.2014

Revision: 25.03.2021

· 9.2 Other information

No further relevant information available.

(Contd. of page 6)

10 Stability and reactivity

- · 10.1 Reactivity
- · 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- **10.3 Possibility of hazardous reactions** Reacts with strong oxidizing agents. Reacts with peroxides and other radical forming substances. Toxic fumes may be released if heated above the decomposition released.

Toxic fumes may be released if heated above the decomposition point.

• 10.4 Conditions to avoid

Keep ignition sources away - Do not smoke.

Store away from oxidizing agents.

- · 10.5 Incompatible materials: No further relevant information available.
- 10.6 Hazardous decomposition products:
- Carbon monoxide Carbon dioxide Hydrogen chloride (HCI) Halogenated hydrocarbons

11 Toxicological information

- · 11.1 Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- on the skin: Irritant to skin and mucous membranes.
- on the eye: Irritating effect.
- Sensitization: No sensitizing effects known.
- · Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Irritant

Danger through skin adsorption.

At long or repeated contact with skin it may cause dermatitis due to the degreasing effect of the solvent.

· Repeated dose toxicity: Repeated exposures may result in skin and/or respiratory sensitivity.

12 Ecological information

- · 12.1 Toxicity
- Aquatic toxicity: The product contains materials that are harmful to the environment.
- 12.2 Persistence and degradability The product is partially biodegradable. Significant residuals remain.
- 12.3 Bioaccumulative potential May be accumulated in organism
- 12.4 Mobility in soil No further relevant information available.

(Contd. on page 8)

Printing date 25.03.2014

Revision: 25.03.2021

Trade name: R3 - AC LEAK REPAIR

(Contd. of page 7)

- · Ecotoxical effects:
- · Remark:

Due to mechanical actions of the product (e.g. agglutinations) damages may occur.

The product is oxygen-consuming. The declared action may be partly caused by lack of oxygen.

Additional ecological information:

· General notes:

This statement was deduced from the properties of the single components.

The product may not be released into the environment without control.

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

Water hazard class 3 (German Regulation) (Self-assessment): extremely hazardous for water Do not allow product to reach ground water, water course or sewage system, even in small quantities.

Danger to drinking water if even extremely small quantities leak into the ground.

\cdot 12.5 Results of PBT and vPvB assessment

- **PBT:** Not applicable.
- · **vPvB:** Not applicable.
- · 12.6 Other adverse effects No further relevant information available.

13 Disposal considerations

· 13.1 Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations. Contact waste processors for recycling information.

- · Uncleaned packaging:
- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agents: Solvent naphtha

14 Transport information
