

REGULATORY ALERT

New Jersey Registration & Reporting Requirement

New Jersey has released guidance related to their refrigerant monitoring and reporting requirements.

Facilities with:

- Refrigeration systems and/or chillers WITH
- 50 pounds or more of a high-GWP refrigerant MUST
- Register their facility AND
- Keep records of their refrigerant usage AND
- Report that information to the NJ Department of Environmental Protection (DEP).

List of Refrigerants

- A high-GWP refrigerant is any compound or blend of compounds with a 100-year GWP value equal to or greater than 150: [NJ DEP HFC Refrigerant List](#)

Applicable Rules

- [N.J.A.C. 7:27E](#) – Subchapter 2 REGISTRATION AND REPORTING FOR REFRIGERATION SYSTEMS

Reporting & Record Keeping

- 1st Reporting year begins on October 1, 2022 or after installation (whichever date is later).
- 1st Reporting year ends on December 31, 2022
- Subsequent reporting is conducted on a calendar year basis (January 1 – December 31)

Registration

- Registration Fee = \$400 for a 5-year registration
- October 1st facilities with existing refrigeration systems must register at [NJDEPonline.com](#);
- New facilities installed after June 21, 2022, must register 90 days after installation at [NJDEPonline.com](#).
- Registration Change Form: If there is a change to the information on the registration, the owner or operator of the facility must advise the Department on the [Refrigeration Facility Registration Change Form](#) within 120 days after the change.
- For step-by-step instructions on how to register your refrigeration facility please view the [Refrigeration Registration Instructions](#) guidance document.
