

	1. Product and Company I	dentification
Product identifier	Gas Leak Detector (4180-53, 4832-C9)	
Other means of identification	Not available	
Recommended use	Gas Leak Detector	
Recommended restrictions	None known.	
Manufacturer information	Nu-Calgon 2611 Schuetz Road St. Louis, MO 63043 US Phone: 314-469-7000 / 800-554-5499 Emergency Phone: 1-800-424-9300 (CH	IEMTREC)
Supplier	See above.	
	2. Hazards Identific	cation
Physical hazards	Flammable liquids	Category 3
Health hazards	Serious eye damage/eye irritation	Category 2
	Carcinogenicity	Category 2
Environmental hazards	Not classified.	
WHMIS 2015 defined hazards	Not classified	
Signal word	Warning	
Hazard statement	Flammable liquid and vapor. Causes se	rious eye irritation. Suspected of causing cancer.
Precautionary statement		
Prevention	Keep container tightly closed. Ground an explosion-proof electrical, ventilating and to prevent static discharges. Wash thore	rks, open flames and other ignition sources. No smoking. nd bond container and receiving equipment. Use d lighting equipment. Use non-sparking tools. Take action bughly after handling. Obtain special instructions before utions have been read and understood. Wear protective on and face protection.
Response	contaminated clothing. Rinse skin with v for several minutes. Remove contact le	extinguish. IF ON SKIN (or hair): Take off immediately all vater or shower. IF IN EYES: Rinse cautiously with water nses, if present and easy to do. Continue rinsing. If eye IF exposed or concerned: Get medical attention.
Storage	Store in a well-ventilated place. Keep co	ol. Store locked up.
Disposal	Dispose of container in accordance with	local, regional, national and international regulations.
WHMIS 2015: Health Hazard(s) not otherwise classified (HHNOC)	None known	
WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC)	None known	

Hazard(s) not otherwise None known. classified (HNOC) Supplemental information None.

3. Composition/Information on Ingredients

Mixture			
Chemical name	Common name and synonyms	CAS number	%
Amides, coco, N,N-bis(hydroxyethyl)		68603-42-9	0.5-1.5*
Ethanol, 2,2"-iminobis-		111-42-2	0.1-1*

Chemical name	Common name and synonyms	CAS number	%
Glycerol		56-81-5	30-60*
Isopropanol		67-63-0	3-7*
Polyethylene glycol		25322-68-3	10-30*
Sulfuric acid, monododecyl este compd. with 2,2",2""-nitrilotris[ethanol] (1:1)	er,	139-96-8	1-5*
All concentrations are in percent by	y weight unless ingredient is a gas. Gas conce	ntrations are in percent by vo	lume.
Composition comments	US GHS: The exact percentage (concentrati secret in accordance with paragraph (i) of §1 *CANADA GHS: The exact percentage (conc trade secret.	910.1200.

	5. Fire Fighting Measur	res	
Suitable extinguishing media	Foam. Water fog. Carbon dioxide (CO2).		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as the	his will spread the fire.	
Specific hazards arising from the chemical	Vapors may form explosive mixtures with air of ignition and flash back. During fire, gases should wear a self-contained breathing appa	hazardous to health may be f	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full p	protective clothing must be wo	rn in case of fire.
Fire-fighting equipment/instructions	In case of fire and/or explosion do not breath so without risk.	e fumes. Move containers fro	m fire area if you can do
Specific methods	Use standard firefighting procedures and cor	nsider the hazards of other inv	volved materials.
General fire hazards	Flammable liquid and vapor.		
Hazardous combustion products	May include and are not limited to: Oxides of	f nitrogen. Hydrogen chloride.	Oxides of carbon.
	6. Accidental Release Mea	sures	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep per low areas. Eliminate all ignition sources (no s Do not touch damaged containers or spilled	smoking, flares, sparks, or fla	mes in immediate area).

emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Never return spills in original containers for re-use. Clean surface thoroughly to remove residual contamination. Following product recovery, flush area with water. Prevent entry into waterways, sewer, basements or confined areas. Use water spray to reduce vapors or divert vapor cloud drift. For waste disposal, see section 13 of the SDS.
<b>Environmental precautions</b>	Avoid discharge into drains, water courses or onto the ground.
	7. Handling and Storage
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Vapors may form explosive mixtures with air. Avoid breathing vapors or mists of this product. Use only with adequate ventilation. Avoid prolonged exposure. Wear appropriate personal protective equipment. Avoid contact with eyes, skin and clothing. When using do not eat or drink. Wash thoroughly after handling. Keep container tightly closed.
Conditions for safe storage, including any incompatibilities	Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry place out of direct sunlight. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Keep out of reach of children. Store locked up. Store away from incompatible materials (see Section 10 of the SDS).
	8. Exposure Controls/Personal Protection
Occupational exposure limits	

## Canada. Alberta OELs (Occupational Health & Safety Code, Schedule 1, Table 2)

Components	Туре	Value	Form	
Ethanol, 2,2"-iminobis- (CAS 111-42-2)	TWA	2 mg/m3		
Glycerol (CAS 56-81-5)	TWA	10 mg/m3	Mist.	
Isopropanol (CAS 67-63-0)	STEL	984 mg/m3 400 ppm		
	TWA	492 mg/m3 200 ppm		

# Canada. British Columbia OELs. (Occupational Exposure Limits for Chemical Substances, Occupational Health and Safety Regulation 296/97, as amended)

Components	Туре	Value	Form
Ethanol, 2,2"-iminobis- (CAS 111-42-2)	TWA	2 mg/m3

1,3-Dichloropropene (CAS		Can be absorbed through the skin.
Ethanol, 2,2"-iminobis- (CA Methanol (CAS 67-56-1)	AS 111-42-2)	Can be absorbed through the skin. Can be absorbed through the skin.
US. NIOSH: Pocket Guide to	Chemical Hazards	
1,3-Dichloropropene (CAS		Can be absorbed through the skin.
Methanol (CAS 67-56-1)	5 542-7 5-0)	Can be absorbed through the skin.
Appropriate engineering	Good gonoral ventilation (typic	ally 10 air changes per hour) should be used. Ventilation rates
controls	should be matched to condition or other engineering controls to	ns. If applicable, use process enclosures, local exhaust ventilation, p maintain airborne levels below recommended exposure limits. If established, maintain airborne levels to an acceptable level.
Individual protection measures, s	such as personal protective ec	quipment
Eye/face protection	Wear safety glasses with side	shields (or goggles).
Skin protection		
Hand protection	Impervious gloves. Confirm wi	ith reputable supplier first.
Other	As required by employer code.	
Respiratory protection	Respirator should be selected professional following requirem	els may be exceeded, use an approved NIOSH respirator. by and used under the direction of a trained health and safety nents found in OSHA's respirator standard (29 CFR 1910.134), andard for respiratory protection (Z88.2).
Thermal hazards	Not applicable.	
General hygiene considerations		I hygiene measures, such as washing after handling the material d/or smoking. Routinely wash work clothing and protective

	9. Physical and Chemical Properties		
Appearance	Liquid		
Physical state	Liquid.		
Form	Liquid.		
Color	Clear		
Odor	Isopropanol		
Odor threshold	Not available.		
рН	Not available.		
Melting point/freezing point	Not available.		
Initial boiling point and boiling range	unknown		
Pour point	Not available.		
Specific gravity	1.1 - 1.15		
Partition coefficient (n-octanol/water)	Not available.		
Flash point	102.2 °F (39.0 °C)		
Evaporation rate	Not available.		
Flammability (solid, gas)	Not applicable.		
Upper/lower flammability or exp	losive limits		
Flammability limit - lower (%)	Not available.		
Flammability limit - upper (%)	Not available.		
Explosive limit - lower (%)	Not available.		
Explosive limit - upper (%)	Not available.		
Vapor pressure	Not available.		
Vapor density	Not available.		

Relative density	Not available.	
Solubility(ies)	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not available.	
	10. Stability and	Reactivity
Reactivity	The product is stable and non react	tive under normal conditions of use, storage and transport.
Possibility of hazardous reactions	Hazardous polymerization does not	t occur.
Chemical stability	Stable under recommended storage	
Conditions to avoid	flash point. Do not mix with other ch	
Incompatible materials	Strong oxidizing agents. Isocyanate	
Hazardous decomposition products	May include and are not limited to:	Oxides of nitrogen. Hydrogen chloride. Oxides of carbon.
	11. Toxicological	Information
Routes of exposure	Eye, Skin contact, Inhalation, Inges	tion.
Information on likely routes of	exposure	
Ingestion	May cause stomach distress, nause	ea or vomiting.
Inhalation	Prolonged inhalation may be harmf	ul.
Skin contact	May cause irritation.	
Eye contact	Causes serious eye irritation.	
Symptoms related to the physical, chemical and toxicological characteristics	Symptoms may include stinging, tea	aring, redness, swelling, and blurred vision.
Information on toxicological eff	fects	
Acute toxicity

Fish	LC50	Atlantic salmor	n (Salmo salar)	> 1000 mg/L, 96 hours
Persistence and degradability	No data is ava		gradability of this product.	
Bioaccumulative potential	No data availa		,	
Mobility in soil	No data availa	ıble.		
Mobility in general	Not available.			
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.			
	1	3. Disposal (	Considerations	
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.			
Local disposal regulations	Dispose in acc	cordance with all	applicable regulations.	
Hazardous waste code	The waste coo disposal comp		igned in discussion betwe	en the user, the producer and the waste
Waste from residues / unused products	Empty contain	ers or liners may	y retain some product resic er (see: Disposal instructio	dues. This material and its container must ons).

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

#### 14. Transport Information

Transport of Dangerous Goods (TDG) Proof of Classification	Classification Method: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Dangerous Goods Regulations. If applicable, the technical name and the classification of the
U.S. Department of Transportatio	product will appear below.
Basic shipping requirements	
UN number	UN1993
Proper shipping name	Flammable liquids, n.o.s.
Technical name	Isopropanol
Hazard class	Limited Quantity - US
Packing group	
Special provisions	B1, B52, IB3, T4, TP1, TP29
Packaging exceptions	150
