

SAFETY DATA SHEET

According to 29 CFR 1910.1200 Hazard Communication Standard 2012 (HazCom 2012)

Revision: 03/02/2021

CTION 1: Identification Product identifier		
Product name	Fluoride Masking Agent	
Product number	R-0805; R-0805-PL	
Recommended use and restrictions	To be used in accordance with manufacturer instruct manufacturer.	tions or under the direct guidance of the
Manufacturer	Taylor Technologies, Inc. 31 Loveton Circle Sparks, MD 21152 Local: (410) 472-4340 – 8am – 5pm EST Toll-free: (800) 837-8548 – 8am – 5pm EST	
Emergency phone number		
CHEMTREC, United States	1-800-424-9300 – 24-hour service	
CHEMTREC, International	+1 703-741-5970 – 24-hour service	
CTION 2: Hazard(s) identified	cation	
Physical hazards	Not applicable	
Health hazards	Carcinogenicity	Category 1A
	Sensitization, skin	Category 1
	Specific target organ toxicity, repeat exposure	Category 1
Environmental hazards	Not currently regulated by OSHA. For additional info	rmation, refer to section 12 of the SDS.
Signal word	Danger	
Hazard statements	May cause cancer. May cause allergic skin reaction. prolonged or repeated exposure.	Causes damage to organs through
Precautionary statements		
Prevention	Obtain special instructions before use. Do not handle read and understood. Wear protective gloves/protec if contact is likely to occur. Contaminated work clothi workplace. Do not breathe dust/fumes/gas/mists/vap handling. Do not eat, drink, or smoke when using thi	tive clothing/eye protection/face protecti ing must not be allowed out of the pors/spray. Wash skin thoroughly after
Response	IF EXPOSED OR CONCERNED: Get medical advic of water. IF SKIN IRRITATION OR RASH OCCURS contaminated clothing before reuse. Get medical adv	: Get medical advice/attention. Wash
_	Store out of direct sunlight between 36°F–85°F. Stor place. Keep container tightly closed.	e locked up. Store in a well-ventilated
Storage	placer reep container uginity ereccai	
Storage Disposal	Dispose of contents/container in accordance with loo regulations.	cal/regional/national/international
-	Dispose of contents/container in accordance with loc	cal/regional/national/international

	MIXUIC			
	Chemical name	Common name and synonyms	CAS number	% w/w
_	Water	Dihydrogen oxide	7732-18-5	98.0
	Beryllium sulfate tetrahydrate	Beryllium sulphate tetrahydrate	7787-56-6	2.0

SECTION 4: First-aid measures

If inhaled

Remove individual to fresh air. Seek medical attention if breathing becomes difficult or if respiratory irritation develops. Give oxygen or artificial respiration if needed. Use pocket mask equipped with a one-way valve or other proper respiratory medical device. Do not use mouth-to-mouth if individual inhaled the substance.

In case of skin contact

Immediately flush skin with plenty of water for at least 20 minutes. If clothing comes in contact with the product, the clothing should be removed and laundered before reuse. Seek medical attention if irritation develops.

In case of eye contact

Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.

If swallowed

Immediately call a physician or poison control center. Rinse mouth. Never give anything by mouth to a person who is unconscious or is having convulsions. Do NOT induce vomiting unless directed by physician. If vomiting occurs, keep head low so that stomach content does not get into the lungs. Give oxygen or artificial respiration if needed. Use pocket mask equipped with a one-way valve or other proper respiratory medical device. Do not use mouth-to-mouth if individual ingested the substance.

Most important symptoms and effects, both acute and delayed

Refer to section 2 and/or section 11 of the SDS for the most important known symptoms and effects.

Indication of any immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically.

General information

Ensure medical personnel are aware of the material(s) involved and take precautions to protect themselves.

SECTION 5: Firefighting measures

Use extinguishing media appropriate for surrounding fire. Do not use a heavy water stream. Use of heavy stream of water may spread fire.
substance or mixture Not flammable
Not explosive
Hazardous reactions will not occur under normal conditions.
Hazardous gases, sulfur oxides. Other irritating fumes and smoke.
Exercise caution when fighting any chemical fire; hazardous fumes will be present.
Use water spray or fog for cooling exposed containers.
Do not enter fire area without proper protective equipment, including respiratory protection.
Refer to section 9 of the SDS for flammability properties.

SECTION 6: Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mists or vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

Environmental precautions

Avoid discharge into drains, watercourses, or onto the ground.

Methods and material for containment and cleaning up

Ventilate the area. Stop leak if it can be done without risk. Use water spray to reduce vapors or divert vapor cloud drift. Dike the spilled material where this is possible. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewers, basements, or confined areas. Following product recovery, flush area with water to remove residual contamination. Never return spills to original containers for reuse. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

Reference to other sections

For exposure controls and personal protection, refer to section 8 of the SDS. For waste disposal, refer to section 13 of the SDS.

SECTION 7: Handling and storage

Personal precautions, protective equipment, and emergency procedures

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mists or vapors. Do not get in eyes, on skin, or on clothing. Do not taste or swallow. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe good industrial hygiene practices. Label containers appropriately.

Conditions for safe storage, including any incompatibilities

Store out of direct sunlight between 36°F–85°F. Store locked up. Store in a well-ventilated place. Keep container tightly closed. Store away from incompatible materials (refer to section 10 of the SDS).

SECTION 8: Exposure controls/personal protection

Occupational exposure limits

US ACGIH Threshold Limit Values

Components	Туре	Value
Beryllium sulfate tetrahydrate (CAS 7787-56-6)	TWA	0.05 μg/m³ (skin)
US NIOSH: Pocket Guide to Chemical Hazards		
Components	Туре	Value
Beryllium sulfate tetrahydrate (CAS 7787-56-6)	Ceiling	0.5 μg/m ³
US OSHA Table Z-1 Limits for Air Contaminants (2 Components	9 CFR 1910.1000) Type	Value
Beryllium sulfate tetrahydrate (CAS 7787-56-6)	TWA	2 μg/m³
Beryllium sulfate tetrahydrate (CAS 7787-56-6)	Ceiling	5 μg/m³
	e e in ig	0 μg/m

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure controls

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling this product.

Personal protective equipment	
Eye/face protection	Wear appropriate chemical safety goggles if contact is likely to occur.
Skin protection	Wear appropriate chemical-resistant gloves and clothing if contact is likely to occur.
Body protection	Wear appropriate protective clothing if contact is likely to occur.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fumes at levels exceeding the exposure limits. Advice should be sought from respiratory protection suppliers.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state	Liquid
Form	Liquid
Color	Clear, colorless
Odor	Odorless
Odor threshold	Not applicable
рН	2.8
Evaporation rate	No data available
Melting point	No data available
Freezing point	No data available
Boiling point	No data available

Flash point	No dete evolleble
	No data available
Specific gravity	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Flammability (solid, gas)	No data available
Upper Flammability Limit	No data available
Lower Flammability Limit	No data available
Vapor pressure	No data available
Vapor density	No data available
Solubility	Soluble in all proportions
Partition coefficient (n-octanol/water)	No data available
Viscosity	No data available
Explosive properties	No data available
Oxidizing properties	No data available
CTION 10: Stability and react	tivity
Reactivity	Hazardous reactions will not occur under normal conditions.
Chemical stability	Stable under recommended handling and storage conditions (refer to section 7 of the SDS
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Do not use in areas without adequate ventilation.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition	No hazardous decomposition products under normal use.
	rmation
