

What is Refrigerant Banking?

The Refrigerant Banking Program helps companies guarantee their future refrigerant needs. Now is the time to begin managing your existing inventories. You will have access to your refrigerant when you need it without paying **tomorrow's** price.

- NRI will clean and store your recovered refrigerant for you at **today's** price.
- NRI's world-class Analytical Laboratory is ARI certified and will ensure that all refrigerant returned to you meets or exceeds ARI 700 Specifications.
- NRI is an EPA and ARI certified reclamation facility.
- Banking services are available through all of our US locations

Now is the time to take advantage of this program!

For more information, contact your local United branch or call NRI at 800-262-0012
